MD ASADUS ZAMAN EMON

CANVA DESIGNER
FULL-STACK WEB DEVELOPER
EMBEDDED SYSTEMS & VLSI ENTHUSIAST

EEE UNDERGRADUATE (3RD YEAR)

+8801773553900

Address: 82/2D Firoja Kuncho, West Rajabazar, Farmgate, Dhaka-1215, Bangladesh

ABOUT

Highly motivated EEE student with hands-on expertise in Embedded Systems, IOT, Automation, Robotics, and Web Development. I have proven teaching experience as an Instructor for technical workshops (LFR, Embedded Programming, Code to Cloud) and as a Co-Instructor for the C Programming Bootcamp at University of Asia Pacific(UAP).I know how to make complex concepts easy for beginners. I combine my technical skills with strong mentorship to inspire and guide students in building functional engineering projects.

SKILLS

- Embedded C
- C Programming
- Python
- MCU (Arduino, ESP-32, Raspberry Pi)
- Communication Protocols (UART, SPI, I2C)
- Web Development (HTML, CSS, JavaScript, React.js)
- Backend & Web3 (Google Apps Script, Web3)
- Graphic Design: Canva

TOOLS

- Git & GitHub
- VS Code
- Arduino IDE
- MATLAB & Simulink
- Easy EDA (PCB Design)
- Canva (Banner, Poster, PPT,LOGO)
- Microsoft Word & Excel
- AutoCAD(Electrical)

LANGUAGES

- Bangla
- English

ACTIVITIES

January 2026 - Present (General Secretary)

Programing & AI Club of University of Asia Pacific

- Led club operations, strategized technical and collaborative events, and mentored junior members in programming and AI initiatives.

Sept 2025 - Jan 2026 (Technical Lead)

Programing & AI Club of University of Asia Pacific

- Organized CoDEX 1.0 (an intra-department programming and technology event)

Jan 2025 - Sept 2025 (Technical Member)

UAP EEE Project Club

- Guided teams in building and testing functional Line Following Robots, ensuring successful completion.

EDUCATION

Jan 2024 - Present

Bachelor of Electrical and Electronic Engineering (EEE)
University of Asia Pacific
Focused on Embedded Systems, VLSI Design, and Circuit Analysis.

Jun 2023 - Nov 2023

BSc in Civil Engineering (Attended for 4 months)
Borisal Engineering College (Affiliated with Dhaka University)
Completed 1st Semester coursework

PROJECTS

View detailed documentation and code on GitHub.

Low Power Embedded Architecture Attendance Device
Developed an energy-efficient biometric attendance system using low-power sleep modes and optimized microcontroller architecture.
Embedded C, Fingerprint Sensor, Power Management, ESP-32/Wi-Fi, Google Apps Script (Cloud Backend)

AutoCAD Electrical Design Web App
Built an automated tool for electrical engineers to calculate building loads, fan/light distribution, wire sizing, and switchgear selection, streamlining the AutoCAD design process.
HTML, CSS, JavaScript, Google Apps Script

Smart Energy Meter with Fire & Gas Detection
Developed an IoT-based smart energy meter using ESP-32 to monitor real-time electricity consumption.
Integrated MQ-2 and Flame sensors to provide instant safety alerts for gas leakage and fire hazards.
ESP-32, Embedded C, IoT Cloud

Smartphone Controlled Door Lock
Engineered a wireless door locking system allowing users to control access remotely via a smartphone application.
ESP-32, Wi-Fi/Bluetooth, Embedded C

Line Following Robot (LFR)
Built and programmed an autonomous robot using IR sensors for accurate path detection and obstacle avoidance.
Arduino, Embedded C, Motor Driver,IR Sensor

Programming & AI Club Official Website
Developed the official club website with integrated Web3 features, and currently managing its maintenance, updates, and training club members on technical operations.
HTML, CSS, JavaScript, Web3, Google Apps Scrip

HONORS & AWARDS

- International Achievement: Represented Bangladesh at the International Science and Invention Fair (ISIF) 2025 in Bali, Indonesia, and secured the Runners Up (4th in Bangladesh Region).
- Instructor – Code to Cloud: Full-Stack Web Development & IoT Integration Workshop, UAP (2026)
- Instructor – Embedded Programming 1.0 Workshop, UAP (2026)
- Instructor – Line Following Robot (LFR) Workshop, UAP (2026)
- Co-Instructor – C Programming Bootcamp, UAP (2025)
- Certificate of Appreciation – Awarded by the university for designing and developing the official website of the Programming & AI Club
